Estim8

Make Confident Bid/No-bid Decisions with Precise Cost Estimates

Increase your bid-to-win ratio

Estim8 is a powerful, user-friendly and highly configurable cost estimating solution that helps contractors and consultants generate detailed cost estimates for large-scale projects faster and with greater accuracy.

Material line items, BOQs and work schedule scan be imported directly from Excel or input manually, and seamlessly integrates with your CRM and ERP Solutions to reduce manual effort and errors.

It fits perfectly for GCs of all sizes and proves useful for mid-sized projects and megaprojects in various sectors such as Construction, Oil and Gas, EPC, Mining, etc.
