

Transmittal Management System

Seamless Document Transmission to Internal and External Stakeholders

How can a TMS help your organisation?

Streamlined Workflows & Automated Transmission

Improves overall efficiency and saves time on manual document handling

Cost-Effective Project Management

Time savings, reduced errors, and improved collaboration

Informed Decision-Making

Reduced the risk of outdated or incorrect data

Scalable for Growth

Scales for projects, documents or users without compromising performance

Centralized Collaboration Platform

Enables internal/external stakeholder collaboration on documents with easy access

Transparent Document Lifecycle

Tracking and logging for transparency and, reduces errors with version control

Audit Trail for Compliance

Detailed tracking and logging to create an audit trail

THE CCS DIFFERENCE

- Upgrade your TMS with no added M365 fees
- Tailor for seamless workflow alignment
- Share external documents with added security layers
